EDUCATION

- **Universidad Rey Juan Carlos**   Madrid
  University Degree in Software Engineering   *2014 – 2019*

EXPERIENCE

- **Kelea**   Madrid
  Desarrollador Backend - Inditex project   *Sep 2024 - Present*
  - **Backend Developer**: Java 17/21, Hexagonal architecture, Spring 6 and Maven
  - **Testing**: JUnit, Mockito, Sonar and Grafana
  - **Databases**: MariaDB, Dbeaver
  - **CI/CD**: Github Actions y Openshift
  - **DVCS**: Github, Jira y Git
  - **SSOO**: Windows and Linux
  - **Otras herramientas**: Microsoft Clarity, Swagger, Miro, Lombock and Notion

- **Viewnext**   Madrid
  Backend Software Engineer - IBM/Santander project   *Feb 2021 - Sep 2024*
  - **Microservices Backend Developer**:
    - **Java microservices:** : Java 11/17, Spring 5/6, Spring WebFlux, Maven
    - **Python microservices:** : Python 3, Flask framework and Kafka
  - **Testing**: JUnit, Mockito, Sonar, Kiuwan, JMeter, Newman and Cilantrum
  - **Databases**: MongoDB and Oracle
  - **CI/CD**: Jenkins, Github Actions and Openshift
  - **DVCS**: Github, Jira, Confluence and Git
  - **O.S**: Windows
  - **Other tools**: Kibana, Dynatrace and Kafka

  Technical Lead - IBM/Santander project   *Dec 2023 - June 2024*
  - **In addition to developer functions**: Requirements gathering, efficiency testing and code review, gitflow coordination, release generation and documentation, support to other developments.

- **Work4Data**   Madrid
  Software Developer   *Sep 2018 - Dec 2020*
  - **Frontend and Backend developer.**: Spring framework, AngularJS, Hibernate, JPA
  - **Dev Environment**: Springboot 2 , SpringBatch 3, Java 8 to develop REST and SOAP services
  - **Workflows**: Continuous integration and continuous deployment (Jenkins, Docker, Maven)
  - **Databases**: PostgreSQL, OracleSQL and MSSQL
  - **DVCS**: Gitlab , Jira y Git
  - **O.S**: Linux

PROJECTS

- **Portfolio** | *Web from 0 with HTML5 , CSS , JS without framework*   2017 – Present
- **ExpiringOnNetflixSoon** | *Python and Selenium*   2022 – 2023
- **Competitive Programing Repository** | *Solving competitive programming problems in Java 8*   2018 – 2022
- **Final Degree Project** | *Metaheuristics for the alpha-neighbor p-center problem in Java*   2019
- **FitURJC** | *Bootstrap, Angular 5, Spring and MySQL database*   2018

Courses

- **Modern software architectures** | *Udemy*   2024
- **Kafka Stream for data procesing (Kafka V3)** | *Udemy*   2024
- **Java 21, Java 17, Java 11 and Advance Java 8** | *Udemy*   2023
- **Reactive Programming with Spring Boot 2 and Spring WebFlux** | *Udemy*   2021
- **Docker and Kubernetes course, introduction to AWS** | *Udemy*   2020
- **Git and Workflows introduction** | *Udemy*   2020
- **Competitive programming course** | *URJC*   2019
- **TOEIC Listening and Reading** | *TOEIC*   2019
- **Scrum Fundamentals Certified** | *SCRUMStudy*   2019
- **Cybersecurity Attacks and Countermeasures** | *URJC*   2018
