PROFESSIONAL PROFILE

I am a very good team player, with great time management skills. I have developed software in several languages, especially Java, Python and recently NodeJS.
My main interests are problem solving and algorithmics, the whole back-end part. I am very familiar with agile project management, with development methodologies such as Scrum, Xtreme programing or Pair programing.

WORK EXPERIENCE

Sep 2018 - Dec 2018 **Work4Data – Madrid**
Internships

- Support in the design and development of applications.
- Backend Development in Spring Framework , Spring REST
- Support in the development of applications with Angular js.
- Contribution in all phases of the development life cycle.

Ene 2019 – Dec 2020 **Work4Data – Madrid**
Developer

- Frontend and Backend developer. (Spring framework, AngularJS, Hibernate, JPA)
- Springboot 2 , SpringBatch 3, Java 8
- REST and SOAP services
- Continuous integration and continuous deployment (Jenkins, Docker, Maven)
- PostgreSQL, OracleSQL, MSSQL as databases.
- Gitlab , Jira y Git as DVCS

Feb 2021 – Hoy **Viewnext – Madrid**
Developer

- Microservices Backend Developer:
    - Java microservices: Java 8+, Spring 5, Spring WebFlux, Maven
    - Python microservices: Python 3, Flask framework.
- JUnit, Mockito, Sonar, Kiuwan and Cilantrum in the Testing section.

- Jenkins and Openshift (CI/CD)
- Github, Jira and Git as DVCS

EDUCATION

2012 - 2014   **Diploma of Post-Compulsory Secondary Education with the specialisation in Science and Technology**
Colegio La Salle Griñón.

2014 - 2019   **University Degree in Software Engineering**
Universidad Rey Juan Carlos.

TECNICAL SKILLS

Programming   C , Java, Python , HTML, XML, CSS, JavaScript, SQL
Frameworks   Spring, Angular
O.S   Linux, Windows
DB   Oracle, MySql, PostgreSQL, MongoDB
Testing   JUnit, Mockito, SonarQube
Others   Git, GitHub, Gitlab, Jira, Trello, Docker, Jenkins

LANGUAGES

Spanish mother tongue (native).
English B2 (Intermediate Level).

CERTIFICATES AND PERSONAL PROJECTS

MOOC's.   Cybersecurity Attacks and Countermeasures (URJC)
                     How to manage the technological development of a startup (URJC)

Online Courses   Python and Java courses (50h)
                     Scrum Fundamentals Certified
                     TOEIC Listening and Reading
                     Competitive programming course URJC 2019
                     Git and Workflows introduction
                     Scrum Fundamentals
                     Docker and Kubernetes course, introduction to AWS
                     Reactive Programming with Spring Boot 2 and Spring WebFlux

Personal Projects   FitURJC – Bootstrap, Angular 5, Spring and MySQL database.
                     Telegram Bot – Developed with Java/Spring
                     Competitive Programing Repository – Java 8
                     Portfolio – HTML5 , CSS , JS
                     Final Degree Project - Metaheuristics for the alpha-neighbor p-center problem (Java 8)

OTHERS

Miscellaneous: Own vehicle, high availability, first aid course.
Hobbies: Reading, Sports and Video Games.
